treeleo

The best global environmentally friendly company Qwell means “Quality and Well”.

Qwell was established on the corporate philosophy of making the high quality product in excellent condition.

This company has been operated to become a brand that everyone from newborns to the elderly people can reach out to use with confidence.

The chemical components are excluded in product manufacturing and there is no compromise in cost reduction for sales growth.

We pledge to give complete satisfaction to every users with pure products that are environmentally friendly and harmless through continuous studies and persistent technologies.

TreeOleo Toothpaste

TreeOleo provides an outstanding protection against periodontal diseases, gingivitis and cavities by preventing the bacteria to enter through gum. (Proven by Kyung Hee University dental school research group)

TreeOleo Toothpaste sustains the freshness in your mouth longer by having the TreeOleo substance to travel through your gum to your brain and it helps increasing the gum immunity to make healthier gums.

It is highly recommended for bad breath as one of the major benefits of TreeOleo is deodorizing effect.

It helps easing the stomatitis and other gum disease that may cause the bad breath.

The use of this product eliminates the smell of any strong flavored foods.

This product is a non-fluoride toothpaste that is made with only natural components and there is no side effects caused by fluoride.

Ingredients:

xylitol, green tea extract, sorbitol solution, chitosan, propolis extract, menthol, precipitated calcium carbonate, aminocaproic acid, calcium monohydrogen phosphate, allantoin chlorohydroxy aluminum and more.

Specification:

quasi drugs, 150g

TreeOleo Acne Soap

The natural substance, TreeOleo is excellent in bactericidal activity.

When the excretion cycle of the skin gets delayed due to external or genetic cause, skin cells, sebum, and hair can clump together into a plug.

This plug gets infected with bacteria and pimple starts to develop.

TreeOleo controls the infection by clearing up the bacteria inside a pimple and suppresses bacteria reproduce on your skin.

During puberty, the excess hormones cause your oil glands to become overactive, enlarge, and produce too much oil, or sebum which leads bacteria to be developed easily.

The use of TreeOleo Acne Soap gives you an excellent acne soothing effect by eliminating the harmful bacteria.

Specification:

100g (including moisture) / 90g (dry)

Hydrogen All in one washer (Shampoo & Body Washer in One)

Shampoo, conditioner and body wash are all in one product.

It is made safe and harmless by using the natural preserving system and the surfactant that is 100% natural and environmental friendly with EWG Hazard degree 0-2.

Newborn babies and moms can use together with confidence.

The soft and gentle foaming of this product removes the wastes on your hair clearly and it is a 100% natural and naturally derived product with low pH level that maintains the healthy hair root and the lasting shine on hair.

The main component, TreeOleo stimulates the metabolism on scalp and maintains the strength on hair.

(Proven by Chung Buk University research group)

Put the hydrogen ball in shampoo before use and wait for 2 hours to have the sufficient amount of hydrogen.

The sebum on the scalp is easily oxidized by active oxygen, making the hair follicle weak and causing hair loss.

Hydrogen is the most powerful antioxidant that helps preventing the hair loss as well as making the hair and scalp healthy.

Specification:

300ml

Treeoleo Soothing Spray

Hydrogen Soothing Spray is made with TreeOleo by optimizing the soothing effects, one of its functional components. This product can immediately improve skin damage after the UV exposure. It also prevents and restores the sun burns caused by long hours of outdoor activities. It gives an immediate relief with its strong soothing function.

The instant soothing effect in this product is incomparable to any other sun burn products, such as aloe. Especially, the rash on sensitive skin caused by UV light is alleviated by several sprays. For outdoor tanning, using this product after applying the sun tanning lotion prevents the skin damage and skin aging.

Hydrogen Soothing Spray instantly soothes the itch and calms the skin affected by insect bites and relieves the irritations.

how to:

Shake the bottle one or twice before use.

Spray twice around the damaged skin to experience the instant soothing.

Treeoleo Fabric Spray

House dust mites are the main cause of atopy, asthma, rhinitis and allergy and eliminating them cannot be the ultimate solution. The dead mites are broken into pieces after using the mite disinfectant and they become the cause of allergies. The best way is to send them away.

The house mites hate TreeOleo and they run away when they get near the smell of TreeOleo.
It also kills the mites when TreeOleo touches them.

TreeOleo is safe to be exposed to newborns and elderly people.

Most allergies on newborns are due to dust mites. Spray TreeOleo Fabric Spray on newborns bedding five minutes before putting the baby to prevent allergies from occurring.

The TreeOleo oil in TreeOleo Fabric Spray is contained in the capsule and it evaporates slowly through the capsule after application which helps TreeOleo substance to be sustained for a long time.

One spray on beddings keeps the dust mites to be away for more than a week.

how to:

1. Shake the bottle two or three times before applying on beddings and fabrics. Let it dry for about five minutes.
2. Spray every two-three days on beddings to eliminate the dust mites.
After about one month of use, apply once or twice a week.
3. Rub the mouth of the nozzle gently with your hand if the nozzle gets blocked by the capsule of TreeOleo when the product is not in use for a long time.

Treeoleo Car Spray

The stench caused by food spoilage in the car does not easily disappear.

TreeOleo completely decomposes and removes these odors. The new car smell contains a harmful substance called formaldehyde and it causes headaches and burning sensation in eyes. Formaldehyde is classified as a carcinogen.

TreeOleo has an excellent ability to degrade these harmful substances.

Artificial air fresheners made with chemicals are classified as harmful to human body.

They do not remove the odor but it just covers the odor for a bit. Therefore, it can turn the smell into other unpleasant odor and produce other stench.

In air conditioner, legionella is parasitized. Legionella is a harmful bacterium that is fatal to elderly people and newborns with weak immunity and it may cause pneumonia.

These harmful bacteria are sterilized completely by TreeOleo and inside of the car can be transformed into a safe space.

It decompose the smell and keeps air in the vehicle fresh and pleasant.

how to:

1. Spray the entire interior of the vehicle to eliminate the stench.
2. Place the air conditioner or heater as indoor circulation and spray on the floor of passenger seat.

TreeOleo components pass through the air conditioner vent and enter to the inside of the car to decompose the mold and sterilize legionella bacteria.

Treeoleo Handicap Minus 3 _ Sports Spray

TreeOleo Handicap Minus 3 is a product only for golfers.

When you play golf, the hormone called cortisol and DHEA have to come out until the game is finished to achieve good results. The study finds that TreeOleo helps releasing DHEA hormones.

DHEA hormone influences the golfers to be competitive and to have 3-D spatial capability and measuring ability.

The secretion of DHEA has not declined in the player who inhaled the TreeOleo Handicap Minus 3 every hole while it has declined towards the second half of the game in the player who did not use the product.

It shows that there is a difference in being competitive and having the putting sense between players with and without vigorous secretion of DHEA hormone.

The player with vigorous secretion of DHEA hormone finishes the game with better results.

All golfers apply sunscreen during the game. However, in the hot summer weather, it washes away by sweat and they do not re-apply the sunscreen because it is uncomfortable and annoying. At this time, the skin is severely damaged and collagen is decomposed by UV rays which forms wrinkles and produces melanin for black spots to appear on skin.

Apply TreeOleo Handicap Minus 3 and obtain the following effects.

1. Reduces skin damage caused by UV rays.
2. Suppresses melanin that makes dark spots on skin.
3. Inhibits the enzyme that decomposes the collagen during the exposure in the UV rays to prevent skin aging.
4. Active oxygen is rapidly generated in the skin when it is exposed to UV rays and it is the main cause of skin aging.

Hydrogen dissolved in TreeOleo Handicap Minus 3 decomposes active oxygen and controls skin aging.

There is no function to prevent UV rays fundamentally in TreeOleo Handicap Minus 3.

However, the high magnesium content of minerals scatters the UV rays partially to provide the UV protection.

how to:

1. Spray your face before standing on the tee box.
2. Spray before putting to reduce your handicap.
3. Spray before the outdoor activities such as bicycling, mountain climbing, fishing to reduce skin again caused by UV rays.
4. Experience the better skin after using TreeOleo Handicap Minus 3 by comparing with the use of other sunscreen products only.

TreeOleo Shoe Spray

The inside of the running shoes can be wet with sweat and with no ventilation which cause germs and fungi to breed easily. It also causes the severe foot odor and the bacteria to move onto the feet.

TreeOleo Shoe Spray is a hydrogen deodorant product that contains the natural substance of TreeOleo that is not harmful to human body. It prevents the growth of germs and fungi and eliminates the source of odor.

TreeOleo Shoe Spray contain microcapsule in the solution that provides the controlled release of TreeOleo for longer existence of the effects.

Spray inside the shoes with severe stench for about a week will decompose the smell.

how to:

1. Spray on shoe insoles before wearing.
2. Spray after exercise to prevent getting mold and smell.
3. Spray inside the basement and the leather shoes during the heavy rainy season to avoid molds to occur.
4. Rub the mouth of the nozzle gently with your hand if the nozzle gets blocked by the capsule of TreeOleo when the product is not in use for a long time.
